

**CENTRIFUGAL FORCE-ACTIVATED SIGNAL LIGHT  
ASSEMBLY FOR VEHICLES**

**ABSTRACT OF THE DISCLOSURE**

5       A centrifugal force-activated signal light assembly for use in a vehicle is disclosed in which a metal weight is suspended from a metal conical spring at the bottom side of a set of battery cells inside a metal casing and vibrated to touch the metal casing intermittently upon running of the vehicle wheel in  
10      which the assembly is installed, causing the LED to flash.
